President Grant's Message.

In order to make room in full for the publication of the annual Message of the President of the United States, which is of more than ordinary interest, we are compelled, for want of space, to give up our leading columns to the President's Message.

Washington, Dec. 5. To the Senate and House of Representatives: In transmitting to you my fourth annual message it is with thankfulness to the Giver of all Good that I am able to say that the year has been blessed for the last year with peace at home and abroad, and a general prosperity has been vouchsafed all.

With the exception of the recent devastating fire which swept from the south with a breath as it were, millions of accumulated wealth are in the city of Boston, there have been no extraordinary calamities within the year to record. It is gratifying to note how, like their fellow citizens of the city of Chicago under similar circumstances a year earlier, the citizens of Boston are rallying under their misfortune, and the prospect is that their energy and perseverance will overcome all obstacles and show the same promptness and promptness to disaster befalling them. Undoubtedly we have been free from pestilence, war, and those calamities which often overtake nations, and as far as human judgment can generate the future, peace seems to exist to the south with a breath as it were, millions of accumulated wealth are in the city of Boston, there have been no extraordinary calamities within the year to record. It is gratifying to note how, like their fellow citizens of the city of Chicago under similar circumstances a year earlier, the citizens of Boston are rallying under their misfortune, and the prospect is that their energy and perseverance will overcome all obstacles and show the same promptness and promptness to disaster befalling them.

The report of the Agent of the United States appointed to attend the General Tribunal, accompanied by particulars of the proceedings of the Arbitrators, arguments of counsel of both Governments, award of the Tribunal, and opinions given by the several Arbitrators, is transmitted herewith. I have caused to be communicated to the heads of the three friendly powers who complied with the joint request made to them under the treaty, the thanks of this Government for the appointment of arbitrators made by them respecting it, and also my thanks to the several arbitrators for the promptness, impartiality, and great ability with which they discharged their arduous and high functions. Her Majesty's Government has so communicated to me its appreciation by Her Majesty of the ability and industry displayed by Mr. Adams the arbitrator named on the side of this Government, during the inquiries and discussions of the Tribunal. I cordially unite with Her Majesty in this appreciation; it is due to the Agent of the United States before the Tribunal to record my appreciation of the marked ability, unimpaired patience, and the prudence and discretion with which he has conducted the responsible and delicate duties committed to him; as it is also due to the learned and eminent counsel who attended the Tribunal on the part of this Government, to express my sense of the talent and wisdom which they brought to bear in the argument, and upon the result so happily reached, will be the province of Congress to provide for the distribution among those who may be entitled to it, of the respective shares of the money to be paid. Although it is not payable until a year from the date of the award, it is deemed proper that so time be lost in making the proper examination of the several cases in which indemnification may be due. I consequently recommend the naming of a Board of Commissioners for that purpose. By the thirty-ninth article of the Treaty of Washington, the respective claims of the United States and Great Britain in their construction of the Treaty of the 15th of June, 1846, defining the boundary line between their respective territories, were submitted to the arbitration and award of His Majesty the Emperor of Germany, to decide which of the claims is most in accordance with the true interpretation of the treaty of 1846. His Majesty the Emperor of Germany having been pleased to undertake the arbitration, the entire thanks of this Government and the people of the United States, for the labor, pains, and care which he has devoted to the consideration of this long pending difference are due. I have caused an expression of my thanks to be transmitted to His Majesty. Mr. Bancroft, the representative of this Government at Berlin, conducted the case, and prepared the statement on the part of the United States, with the ability that his past services justified the public in expecting at his hands. He was a member of the Cabinet at the date of the treaty which has given rise to the discussion between the Governments, and the Minister to Great Britain when the obstruction, now pronounced unfounded, was first advanced, and the agent and representative of the Government to present the case and to receive the award. He has been associated with the question in all its phases, and in every stage has manifested a patriotic zeal and earnestness in the maintenance of the claim, of the U. S. He is entitled to much credit for the success which has attended the submission. After a patient investigation of the case, and of the statement of each party, His Majesty, the Emperor of Germany, on the 31st day of October last, signed his award in writing, decreeing that the claim of the Government of the United States, that the boundary line between the territories of Her Britannic Majesty and the United States could be drawn through the Delmaro channel, in conformity with the true interpretation of the treaty concluded on the 5th of June, 1846, between the Agents of Her Britannic Majesty and of the United States. Copies of the case presented in behalf of the Government, and of the statement in reply to each, and a translation of the award, are transmitted herewith. This award confirms the United States in their claim to the Imperial Archipelago of islands lying between the Continent and Vancouver Island, which for twenty-six years, ever since the ratification of the treaty by Great Britain, has ceased, and leaves us for the first time as a nation without a question of disputed boundary between our territory and the possessions of Great Britain on this Continent. It is my gratifying action of Her Majesty's Government in giving effect to the award in satisfaction of a request from this Government, and in the reception of the award, signed by the Emperor, Her Majesty had given instructions for the removal of her troops which were stationed there, and for the cessation of all claims of jurisdiction, so as to leave the United States in exclusive possession of the lately disputed territory. I am gratified to be able to announce that the orders for the removal of the troops have been executed, and the military joint occupation of San Juan has terminated. The islands were then vacated, and possession of the United States. It now becomes necessary to complete the survey and determine the position of the boundary line through the Delmaro Channel, upon which the Commission which was named by the British Government, and the American Commission, recommended the appointment of a Committee to determine the difficulties attending the determination of our admitted line of boundary after the occupation of the territory and the respective governments, points to the importance of establishing, by natural objects or other means, the actual line between the territory acquired by purchase from Russia, and the ajoining possessions of Her Britannic Majesty. The region is now so occupied that no conflicting interests of individuals or of jurisdictions are likely to interfere to the delay, or embarrassment of the actual line. If different, and a population shall enter and occupy the territory, some trivial contents of neighbors may again arise, the two Governments in amity, I therefore recommend the appointment of a committee to determine the line between our Territory of Alaska and the co-terminous possessions of Great Britain. In my last annual message I recommended the legislation necessary to carry out the part of the Treaty of Washington on May 1871, relating to the fisheries and to other matters touching the relations of the United States towards the British North American possessions to become operative as soon as the proper legislation should be had on the part of Great Britain and her possessions. That legislation on the part of Great Britain and her possessions has not then been had, and during the session of Congress a question was raised which, for a time, raised a doubt whether any action by Congress in the direction indicated would become important, a question which has since been disposed of, and I have received the approval of the Imperial Parliament and the Legislature of the Provincial Government have passed laws to carry the provisions of the treaty on the matters referred to into operation; I therefore recommend your adoption of legislation in the same direction to carry out on the part of this Government the joint commission for determining the boundary line between the United States and the British possessions between the Lake of the Woods and the Rocky Mountains. It is desirable that the force be increased in order that the completion of the survey and the determination of the boundary line may be sooner attended to, and to this end I recommend that a sufficient appropriation be made.
